

## SoftPlan Technical Bulletin

Last Updated: October 30, 2001.

### Problem:

During the installation of SoftPlan, a warning is displayed stating that the software being installed has not passed Windows Logo testing.

### Users Effected:

Users with the Windows XP operating system.

### To Fix:

It is safe to continue with the installation. Click on the **Continue Anyway** button to complete the installation of SoftPlan.

Note: Users of other Windows operating systems are not affected by this warning.

If the problem persists, please contact SoftPlan Technical Support at (519) 886-9750, fax:(519) 886-6955 or e-mail: support@softplantech.com.
